

# GO Virginia Region 6 COVID-19 Response

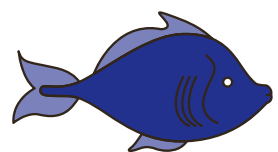

## New Funding!

Up to **\$1M in additional funding** has been made available to each GO Virginia Region for COVID-19 response.

These funds will **help the region build capacity to support and serve existing businesses, priority traded sectors, and essential businesses**, including the healthcare system and its supply chain during this crisis.

Projects must still align with Region 6's Project Requirements.

The **Region 6 Council awarded \$77,000** of these funds to the MPCBPAA for an seafood commerce app idea.

## GO Virginia Grant Awards

At its Council meeting in May, the **Region 6 Council awarded \$299,000 in funding for the region in traditional GO Virginia** funding categories.

The **Fredericksburg Regional Alliance received \$48,750** in GO Virginia funding to complete their updated Industry Cluster Analysis and Regional Industrial Facilities Authority scope.

## New Project Timeline and Application

To better assist the region in receiving funding, staff has updated the region's application process and timeline to shorten the window between application and approval.

- Planning Grants - Approval on a Rolling/Monthly Meeting Basis
- Implementation Grants - Approval Quarterly per State Board Meetings
- COVID-19 Fast Access - Approval on a Rolling/Emergency Basis
